
Beyond – Song Lyrics

2. Wintertime

1. There is frost on the ground today
And winter sun is fading
Every flower that was here to stay
Has vanished on the wind
All the leaves have been blown away
The trees are cold and naked
I had hoped for a better day
But now that hope is gone

*When I lift my eyes
Look across the fields today
Every tree is dressed
In a shade of winter grey
Summer time is gone
Only bitter frost remains
Springtime is hidden far away
Yet the warmth will surely come again*

2. I have looked for the signs of spring
Imagined warmer weather
I have searched every mountain stream
But now my strength is gone
Where's the hope in a winter tree
That stands so bare and lifeless?
I have looked, but I see no green
On branches stripped and dead.

3. I believe in the summer sun
I know there is a promise
There is frost on the ground today
But spring will surely come.
Every tree standing dead and grey
Will grow back to a forest
Every leaf that has blown away
Will surely grow again.
